IF: #1 Question "Please acknowledge your consent to proceed below. You may print a copy of this consent form for your records. Clicking on the "Agree" button indicates that:

- You have read the above information
- You voluntarily agree to participate

" is one of the following answers ("Disagree") **THEN:** Disqualify and display:
Sorry, you do not qualify to take this survey. We require your consent.

Thank you very much for agreeing to participate in this survey. The information provided by you in this questionnaire will be used for research purposes. It will not be used in a manner which would allow identification of your individual responses.

The purpose of this study is to conduct a survey, which will support the evaluation of the Green Prosperity Project. Social Impact previously conducted the evaluation of the Participatory Land Use Planning (PLUP) activity and the Cocoa and Community-based Off-grid Renewable Energy portfolios, which are also MCA-Indonesia investments. SI has been working in Indonesia for over ten years, and has conducted several evaluation activities across all sectors.

The objectives of the evaluation are the following:

1. To conduct a process evaluation of the GP Project, focusing on the design, implementation fidelity, and costs/benefits of the Project;
2. To conduct a performance evaluation of the GP Project, focusing on lessons learned, sustainability, and operational successes/challenges.

This survey is expected to take up to thirty minutes to complete. The survey can be completed over multiple sittings - simply click "Save and Continue" to take a break. Should you feel that others within your organization may also want to participate, please contact the survey administrator. We use the survey in addition to interviews and focus group discussions that we have conducted. **Please consider completing this survey even if you have already spoken with us. We know you are busy, but we truly value your feedback.**

If you have questions about the study or the procedures, please contact the Research Manager, Mr. Henri Sitorus at henri.sitorus@gmail.com.
